

JISHNU V

+91 8296073199 | jishnuvelmurugan365@gmail.com | Kothanur, Bangalore | [LinkedIn](#) | [GitHub](#)

Backend-focused Software Engineer (final-year CSE) skilled in Java, Python, and SQL, with a solid grounding in Object-Oriented Programming, DBMS, and Data Structures & Algorithms. Experienced across the full SDLC — designing, coding, testing, and deploying production-style REST APIs and microservices with JWT auth, RBAC, and Docker. Hackathon runner-up, quick learner, and currently strengthening DSA fundamentals in Java ahead of placement season.

Technical Skills

- **Languages:** Python, Java, SQL
- **Core CS:** Object-Oriented Programming, Data Structures & Algorithms, Software Development Life Cycle
- **Backend Development:** Spring Boot, Hibernate (JPA), REST APIs, Spring Security, OAuth, JWT Authentication, Microservices
- **Databases & Caching:** MySQL, PostgreSQL, MongoDB
- **Tools & DevOps:** Git, GitHub, Docker, Maven, Swagger/OpenAPI

Projects

Swastra – Healthcare Management System (Backend) [↗](#)

Tech: Java 21, Spring Boot, Spring Security, JWT, PostgreSQL, Hibernate, Docker, Swagger

- Designed and developed a Spring Boot backend supporting Admin, Doctor, and Patient roles with JWT-based authentication and role-based access control
- Designed appointment booking with double-booking prevention using Spring Data JPA
- Modeled an 8-table relational schema in PostgreSQL and documented 25+ APIs with Swagger

CareerGPT – AI-Powered Adaptive Career Guidance System [↗](#)

Tech: Java 22, Spring Boot, Spring Security, JWT, PostgreSQL, Hibernate, Python, FastAPI, OpenAI API

- Architected a microservices backend with Spring Boot handling JWT auth, student sessions, and PostgreSQL persistence via Hibernate ORM
- Built a Python FastAPI AI service with adaptive LLM-based questioning and live KCET/COMEDK data integration for personalized career report generation

CivicPulse Nexus – Smart Governance Platform [↗](#), Infosys Springboard

Tech: Java, Spring Boot, Spring Cloud, Kafka, PostgreSQL, Docker, Eureka

- Working on a microservices architecture handling Citizen and Grievance services with complaint lifecycle management (Registered → Assigned → In Progress → Resolved → Closed) and automated SLA tracking with escalation
- Implementing event-driven communication using Apache Kafka to keep services loosely coupled
- Gaining exposure to API Gateway routing, Eureka service discovery, and Keycloak-based OAuth2/JWT authentication

Professional Experience

Java Technology Stack Virtual Intern, Infosys Springboard

06/2026 – Present

- Selected for Virtual Internship 7.0 (Batch 1) under the Java Technology Stack learning path; currently developing CivicPulse Nexus, a Smart Governance Management Platform, through Infosys-led structured training and hands-on project work

Java Developer Intern, Elevate Labs

09/2025 – 11/2025

- Contributed to backend application development using Java in a collaborative Agile environment
- Assisted in implementing business logic and testing backend modules
- Used Git/GitHub for version control and sprint-based development workflows
- Developed unit tests to validate functionality and improve application stability

Achievements & Certifications

Runner Up – Devfusion Hackathon, Google Developer Groups, Atria Institute of Technology

Java Spring Framework, Spring Boot & Spring AI (Generative AI), Udemy (Telusko)

AI for Skilling Certificate, Capgemini & Nasscom Foundation – Python for Machine Learning

Oracle Cloud Infrastructure (OCI) 2025 Certified AI Foundations Associate, Oracle University

Elected School Captain (Head Boy), BM English School — entrusted to represent and lead the entire student body

Education

Bachelor of Engineering, CSE (IoT, Cybersecurity With Blockchain Technology)

09/2023 – Present

Sir M. Visvesvaraya Institute Of Technology

- Expected Graduation: June 2027
- CGPA: 8.18
